Will You Try a Plat of ALFALFA At Our Expense?

Would you try a plat of Alfalfa if we were to furnish you the seed without any cost to you? Many farmers in this county would raise alfalfa if they knew it could be grown profitably on their soil. Every farmer who is a reader of this paper may try a small plat of alfalfa at our expense. You are to pay nothing for the seed. We send it to you as a present. We have made arrangements with the Farmer and Stockman of St. Louis, whereby we can offer any of our readers enough alfalfa seed to sow one-tenth of an acre. If this seed grows and your soil is found to yield profitably, next year you can grow it as extensively as you desire. You can either buy seed and sow a large plat, or you can save enough seed from the test plat to increase your acreage.

HOW TO GET THE SEED.

Send us \$1.50 for our paper one year, the Farmer and Stockman one year and the Peoples Popular Monthly one year and we will send you enough alfalfa seed to sow one-tenth of an acre, absolutely free of charge. When you remember that alfalfa seed usually retails for more than \$20.00 per bushel, you can see how liberal this offer is. We guarantee this seed to be the very best on the market and entirely free from weed and dodder seed. When you sow it you are sure of having a quality of seed which will enable you to make a thorough test of your soil. From time to time we will publish articles in our paper on how to prepare the ground and sow the seed to insure a perfect stand of alfalfa. Alfalfa seed should be sown in Missouri any time between August 1st and September 25th. You should therefore place your order with us at once. The seed will be mailed direct to you from the Farmer and Stockman in St. Louis, which will insure prompt delivery. Our paper needs no introduction to the farmers of this county. The Farmer and Stockman is the leading farm and stock paper in the nation. The Peoples Popular Monthly is one of the best home monthlies in the country. Send us in your subscription at once; you will never have another opportunity like this to get absolutely pure alfalfa seed. Address all orders to The Taney County Republican, Forsyth, Mo. Use the coupon below and write today.

Date,

TANEY COUNTY REPUBLICAN, Forsyth, Mo.

Enclosed find \$1.50 for which send me your paper one year, The Farmer and Stockman one year and the Peoples Popular Monthly one year. It is understood that the Farmer and Stockman is to mail me, postpaid, enough alfalfa seed to sow one-tenth of an acre of ground.

Wm. Blair, Mr. Rueter, and J. D. Oneal of Rueter, were in town Tuesday in connection with the final proof of Mr. Blair's homestead.

W. L. Pumphrey of the Protem neighborhood, was a visitor to the county seat the first of the week. Mr. Pumphrey says they have had some rain in his section and that things are in pretty fair shape as far as crops are concerned, where the ground has been worked, but that the farmers who quit working their ground will not get much.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and several days' time unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all dealers.

Dr. J. W. Bruton and wife, accompanied by a party of young folks from their home town of Ozark, have been camped north of town at the Gibson spring for several days, and have been having a very enjoyable time. Their inexperience in tent life got them all a slight wetting the other night when the rain came, but they enjoyed that part of it too. The party left Wednesday for a visit at Branson and Hollister before returning home.

Never leave home without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when on board the cars or steam ship. For sale by all dealers.

W. H. Johnson of Springfield, and his son, W. W. Johnson, of Hollister, were visitors in Forsyth Sunday evening and Monday morning. They floated down the river Sunday and returned home Monday.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by all dealers.

The Market Letter.

Kansas City Stock Yards, July 17, 1911. The cattle run here last week was cut in two, as compared with the previous week, the big decrease due to more favorable outlook in the country. Naturally the market improved under this treatment, the close 10 to 40 higher in killing kinds, and 50 to 90 cents on stockers and feeders. The best grades of fat cattle advanced least, the lower grades getting the biggest gains, as the latter had to sell at ruinous rates at the close of the previous week. The market here advanced all week, while Chicago prices declined just as steadily, an anomalous condition, due to unequal distribution of the supplies at the various markets. Kansas City territory has received a fair amount of rain during the past two weeks, and the dry weather influence on receipts at this market has practically been removed. The run here to-day is 11,000 head, including 1600 head of quarantine cattle. It is said that receipts from quarantine territory will be small for some time ahead, as shippers will either put as much weight on their cattle as they can, or wait for an improvement in market prices, while pastures hold out. Top dry lot steers bring \$6.60 to \$6.75, and all corn fed cattle sell above \$6.00. Kansas pasture cattle bring \$5.50 to \$6.15, from the flint hills, and other native grass cattle sell at a range of \$4.60 to \$6.00. Quarantine steers being \$3.90 to \$4.75 for most droves, a few up to \$5.00, and light steers down to \$3.25, cows in quarantine division at \$2.50 to \$4.00, native cows \$2.25 to \$4.75, bulls \$2.75 to \$4.50, veal calves \$5.50 to \$6.50, stock steers \$3.25 to \$5.00, feeders \$4.00 to \$5.50.

Hog prices closed a little lower last week, the result of a big fright on the part of packers on the rising tendency of the market, but it looks like this victory of the buyers would be short lived. The run to-day is small, 7000 head, and prices bounded up 5 to 10 cents this morning, top \$6.60, bulk \$6.25 to \$6.50. More light trashy hogs are appearing than formerly, hence the wider spread in prices. Light weights have forfeited their lead in prices, heavy weights now at the top, medium weights a little below the heavies, light weights to-day at \$6.15 to \$6.50, as that class embraces the big end of the trash. It looks like higher prices for hogs.

Sheep and lambs are holding about even on prices with a week ago, though the market has been up and down. Natives make up the big end of the receipts, and the quality is extremely uneven. Packers buy up the best droves at strong prices, but medium and low grades have a tendency to drag. Run is 5500 to-day, market strong, top lambs \$7.00, weathers \$4.25, ewes \$3.75 stock and breeding ewes worth \$2.50 to \$3.25.
